MARRIO HINKLE

Houston, TX | (512) 909-0892 | marrio.hinkle@gmail.com | linkedin.com/in/marriohinkle | github.com/Aruande | **marriohinkle.com**

PROFESSIONAL PROFILE

Cloud, software, networking, and infrastructure professional with a Java development foundation and hands-on experience spanning full-stack applications, AWS cloud projects, Linux/Windows systems, network troubleshooting, endpoint support, telecommunications, and physical infrastructure. CompTIA Network+, A+, LPI Linux Essentials, and Google AI Professional certified; previously earned AWS Cloud Practitioner (expired Sep 2026). Pursuing a B.S. in Cloud & Network Engineering (AWS Track) and developing AI skills through a Developer / AI Consultant internship.

CORE TECHNICAL SKILLS

Cloud & Systems: AWS S3, CloudFront, Route 53, ACM, API Gateway, Lambda, DynamoDB, IAM/OIDC, SAM/CloudFormation, EC2, RDS; Windows 10/11, Linux CLI, virtualization

Development & Data: Java, Spring Boot/MVC/Data, REST APIs, SQL, PostgreSQL, JavaScript/TypeScript, React, HTML/CSS

Networking & Infrastructure: TCP/IP, DNS, DHCP, IPv4 subnetting, VLANs, Wireshark, Cisco Packet Tracer, SSH, ping/traceroute, Cat5e/Cat6 patching, port mapping, VoIP pass-through

Tools & Operations: Git/GitHub, GitHub Actions, Maven, Postman, npm, hardware diagnostics, S.M.A.R.T., inventory/asset tracking, technical documentation, safety/quality procedures

CERTIFICATIONS

CompTIA Network+ ce | CompTIA A+ ce | LPI Linux Essentials | Google AI Professional | AWS Cloud Practitioner (expired Sep 2026)

PROFESSIONAL & TECHNICAL EXPERIENCE

Freeing Returns (formerly Lillii RNB) - Developer / AI Consultant Intern | Sep 2026-Present

- Participate in technical mentorship and professional development focused on AI development and consulting, building on prior Java, cloud, networking, and infrastructure experience.
- Progressing through Claude developer training and applied AI development as part of the technical learning path.

SHAPE Community Center, Houston, TX - Youth Mentor & Program Facilitator / On-Site IT Support | Jun 2024-Present

- Serve as a youth mentor and program facilitator while providing on-site support for desktop, network peripheral, printer, account/profile, and cabling issues.
- Identified imminent storage-drive failure using S.M.A.R.T. diagnostics and configured/deployed a replacement bookkeeping workstation.
- Deployed a public-access workstation using VoIP phone Ethernet pass-through; configured Admin/Public profiles and a shared Brother network printer.

Revature - Full Stack Software Developer | May 2023-Sep 2023

- Developed team full-stack applications using Java, Spring Boot/MVC/Data, PostgreSQL, REST APIs, React/TypeScript, Git, Maven, Postman, and Agile/Scrum.
- Contributed backend models, data-access components, controllers/services, and API testing for a banking application with documented AWS RDS, EC2, and S3 architecture.
- Worked with application deployment workflows involving database configuration, API endpoints, cloud components, and AWS security-group/network settings.

BLS Trucking, Inc., Houston, TX - Assistant Operations Manager | 2015-2017

- Tracked inventory, packing lists, equipment serials, compliance records, and preventive maintenance; coordinated vendor dispatch and incident resolution.

Bliss Communications, Houston, TX - Communications & Field Infrastructure Technician | 2003-2005

- Installed, tested, and maintained RF communications equipment, antenna hardware, and structured cabling for airport and public-safety environments; performed diagnostics, continuity tests, and troubleshooting.

Texas Instruments, Stafford, TX - Wafer Fab Technician (Photolithography) | 2000-2003

- Operated semiconductor equipment in a Class 100 cleanroom; performed inspections, alarm checks, process verification, issue escalation, and safety/quality procedures.

SELECTED DEVELOPMENT, CLOUD & INFRASTRUCTURE PROJECTS

AWS Cloud Resume Challenge - Live portfolio: marriohinkle.com

- Built and launched an AWS-hosted portfolio with S3, CloudFront, Route 53, ACM, HTTPS, and CloudFront Origin Access Control.
- Developed a serverless visitor counter using API Gateway, Lambda, and DynamoDB; automated frontend deployments with GitHub Actions and IAM OIDC.
- Defined and tested backend infrastructure with AWS SAM/CloudFormation in an isolated test stack. Code: github.com/Aruande/cloud-resume-frontend and github.com/Aruande/cloud-resume-backend.

Associated Network of Transactions (ANT) - Full-Stack Banking Application

- Team-built Spring/React banking application supporting accounts and transactions; documented architecture included PostgreSQL on RDS, backend on EC2, and frontend on S3, with JWT-based security and API integration.

Enterprise Network & Systems Labs

- Configured and troubleshot VLANs, switch ports, subnet routing, DHCP/DNS, Linux networking, and Layer 1-3 connectivity using Wireshark, Packet Tracer, SSH, ping, and traceroute.

TECHNICAL TRAINING

Lillii RNB - RetailTech for Java Programmers | 2019-2020: Instructor-led Java enterprise POS development training; Java 8, Eclipse, Oracle 11g, XML, ANT, and design patterns (Singleton, Factory, Command, MVC).

Revature - Pre-Employment Program (PEP), Software Development | 2024: 10-week program in Java, SQL, REST APIs, Spring Boot, React, AWS/Jenkins DevOps, and AI-enabled development; 99 coding labs, 14 assessments; Spring Social Media Blog API approved by mentor.

EDUCATION

Western Governors University - B.S., Cloud & Network Engineering (AWS Track) | Expected March 2027

Houston Community College - A.A.S., Computer Programming - Applications Development, Java Specialization | 2023
