

MARRIO HINKLE

Houston, TX | (512) 909-0892 | marrio.hinkle@gmail.com | linkedin.com/in/marriohinkle | github.com/Aruande

PROFESSIONAL PROFILE

Cloud, software, networking, and infrastructure professional with a Java development foundation and hands-on experience spanning full-stack applications, AWS-hosted architectures, Linux/Windows systems, network troubleshooting, endpoint support, telecommunications, and physical infrastructure. CompTIA Network+, A+, AWS Cloud Practitioner, LPI Linux Essentials, and Google AI Professional certified. Currently pursuing a B.S. in Cloud & Network Engineering (AWS Track) and expanding into AI development through a Developer / AI Consultant internship.

CORE TECHNICAL SKILLS

Cloud & Systems: AWS EC2, RDS, S3, core AWS services, Windows 10/11, Linux CLI, workstation provisioning, virtualization fundamentals

Development & Data: Java, Spring Boot, Spring MVC, Spring Data, REST APIs, SQL, PostgreSQL, JavaScript/TypeScript, React, HTML/CSS

Networking & Infrastructure: TCP/IP, DNS, DHCP, IPv4 subnetting, VLANs, Wireshark, Cisco Packet Tracer, SSH, ping/traceroute, Cat5e/Cat6 patching, port mapping, VoIP pass-through

Tools & Operations: Git/GitHub, Maven, Postman, npm, hardware diagnostics, S.M.A.R.T., inventory/asset tracking, technical documentation, safety and quality procedures

CERTIFICATIONS

CompTIA Network+ ce | CompTIA A+ ce | AWS Certified Cloud Practitioner | LPI Linux Essentials | Google AI Professional

PROFESSIONAL & TECHNICAL EXPERIENCE

Freeing Returns (formerly Lillii RNB) - Developer / AI Consultant Intern

Sep 2026-Present

- Participate in structured technical mentorship and professional development focused on AI development and consulting while building on prior Java, cloud, networking, and infrastructure experience.
- Progressing into Claude developer training and applied AI development as part of the company's current technical learning path.

SHAPE Community Center, Houston, TX - Youth Mentor & Program Facilitator / On-Site IT Support

Jun 2024-Present

- Serve as an on-site technical responder for desktop, network peripheral, printer, account/profile, and cabling issues while working a part-time community program role.
- Identified an imminent storage-drive failure through S.M.A.R.T. diagnostic warnings and configured/deployed a replacement bookkeeping workstation to prevent accounting downtime.
- Deployed a public-access workstation despite a single Ethernet wall drop by using a VoIP phone PC pass-through; configured separate Admin/Public profiles and integrated a shared Brother network printer.

Revature - Full Stack Software Developer

May 2023-Sep 2023

- Developed full-stack applications in team environments using Java, Spring Boot/Spring MVC/Spring Data, PostgreSQL, REST-style APIs, React/TypeScript, Git, Maven, SQL, Postman, and Agile/Scrum practices.
- Contributed backend models, data-access components, controllers/services, and API testing for a banking application with a documented AWS architecture using RDS for PostgreSQL, EC2 for the backend, and S3 for the frontend.
- Worked within application deployment workflows involving database configuration, API endpoints, cloud-hosted components, and AWS security-group/network settings.

BLS Trucking, Inc., Houston, TX - Assistant Operations Manager

2015-2017

- Tracked inventory, packing lists, equipment serials, compliance records, and preventive-maintenance schedules; coordinated vendor dispatch and incident resolution under delivery and SLA constraints.

Bliss Communications, Houston, TX - Communications & Field Infrastructure Technician

2003-2005

- Installed, tested, and maintained RF communications equipment, antenna hardware, and structured cabling for Houston Airport System and public-safety environments.
- Performed hardware installation, antenna alignment, cable dressing/labeling, continuity testing, first-level diagnostics, and structured troubleshooting using hand tools and technical schematics.

Texas Instruments, Stafford, TX - Wafer Fab Technician (Photolithography)

2000-2003

- Operated high-precision semiconductor equipment in a Class 100 cleanroom, performing inspection rounds, alarm checks, process verification, issue escalation, and strict safety/quality procedures.

SELECTED DEVELOPMENT, CLOUD & INFRASTRUCTURE PROJECTS

Associated Network of Transactions (ANT) - Full-Stack Banking Application

- Team-built banking web application with Spring backend and React frontend supporting registration/login, deposits, withdrawals, transfers, recipients, and transaction history; project architecture used PostgreSQL on AWS RDS, backend deployment on EC2, and frontend deployment on S3.
- Project documentation included JWT-based Spring Security, Axios client requests, database/API configuration, and AWS security-group/network setup.

Enterprise Network & Systems Labs

- Configured and troubleshoot switch port mappings, VLAN trunking, subnet routing, DHCP/DNS services, Linux networking, and Layer 1-3 connectivity using Wireshark, Packet Tracer, SSH, ping, and traceroute.

TECHNICAL TRAINING

Lillii RNB - RetailTech for Java Programmers | 2019-2020

- Selected for and participated in intensive instructor-led training focused on Java-based enterprise Point-of-Sale development, with recurring instructor-led sessions and technical coursework.
- Training environment and prerequisites included Java 8, Eclipse IDE, Oracle 11g, XML, ANT, and software design patterns including Singleton, Factory, Command, and MVC.

Revature - Pre-Employment Program (PEP), Software Development | 2024

- Completed a 10-week technical preparation program covering Java, SQL, REST APIs, Spring Boot, React, AWS/Jenkins DevOps, and AI-enabled development; completed 99 coding labs by Week 10 and all 14 scheduled assessments.
- Developed a Spring Social Media Blog API implementation that received mentor approval and positive technical feedback.

EDUCATION

Western Governors University - B.S., Cloud & Network Engineering (AWS Track) | Expected March 2027

Houston Community College - A.A.S., Computer Programming - Applications Development, Java Specialization | 2023
